### Saint-Gobain Chooses Elettric 80 for US plants

**Elettric 80** is very pleased to announce the continued growth of our partnership with **Saint-Gobain Containers, Inc.** (Muncie, Indiana) – a major producer of glass containers.

Saint-Gobain recently ordered a total of 15 LGVs, 12 to be installed at the Pevely, Missouri facility and 3 for the Lincoln, Illinois plant. These two systems are in addition to the 6 vehicle system currently operating at the Dunkirk, Indiana facility. For more information please contact Derek Roberts at [roberts.d@elettric80.it](mailto:roberts.d@elettric80.it).

### Up and Running in Record Time

**Sant'Anna di Vinadio**, one of Europe's largest bottlers of mineral water (#3 in Italy) was able to complete the installation of 12 LGVs from **Elettric 80** in 48 work days at their plant in Vinadio (Cuneo). "We always put a great deal of effort into the installation phase. Still, this time we even exceeded our own expectations. And more importantly, our customer was able to launch the new system with a minimum of down time. This again shows the importance of good project planning and a smooth installation process" says Leonardo Flamini (Site Manager).

For more information please contact Andrea Pergolizzi at [pergolizzi.a@elettric80.it](mailto:pergolizzi.a@elettric80.it) or Leonardo Flamini at [flamini.l@elettric80.it](mailto:flamini.l@elettric80.it)

### Karlshamns Introduces Elettric 80

**Karlshamns**, one of the world's leading manufacturers of high value-added speciality vegetable oils and fats, introduces **Elettric 80 LGVs** for internal transport of pallets from the production line to a "buffer store". The new system includes the integration of two dedicated "Maxipackers" (delivered by EAB) to the LGV system. The new system at the Karlshamns plant in Sweden will run 24/7 and is expected to be fully installed by late September. For more information please contact Mikael Renström at [renstrom.m@elettric80.it](mailto:renstrom.m@elettric80.it).

### Next dates in 2005:

**drinktec**

**DRINKTEC**  
12-17 September  
München - Germany  
Hall A4

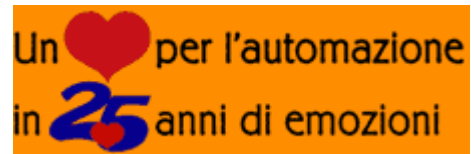

**MIAC**  
13-15 October  
Lucca - Italy  
Hall 3  
Stand 109

### Thanks for Visiting Our "Drawing Table"!

The Interpack exhibition was a great success. Thanks to all of you who visited our stand in Düsseldorf. Our focus on spreading awareness of Elettric 80 and its technology to the International audience has paid off with numerous new contacts all over the world!

Founded in 1980, **Elettric 80** quickly made its mark in the international market by selling highly innovative, fully automated systems. These include robotic palletizers and laser guided vehicles (LGVs), which are sold today under the trade name FREEWAY. After 25 years of constant progress, the **Elettric 80** group is looking forward to continuing to share our enthusiasm and know-how with both new and existing customers!

### Get inspiration from our "idea book"!

In need of some new ideas and inspiration when it comes to material handling and end-of-line logistics? Please send an e-mail to [gerenzani.f@elettric80.it](mailto:gerenzani.f@elettric80.it) and we will provide you with our latest DVD addressing a number of issues, including technology, logistics and economy.

### See the Latest in Palletizing!

During June-August our production facility in **Viano**, Italy (45 minutes from Bologna) will be offering guided tours for a closer look at one of our recent robot innovations, the **Dragon palletizing robot**. Please contact Flavia Gerenzani, [gerenzani.f@elettric80.it](mailto:gerenzani.f@elettric80.it) if you wish to make arrangements for a visit.
